VETERANS AGAIN NAMED GEN. EVANS COMMANDER

Texas Woman's Speech Starts Pandemonium---Mobile, Alabama, Gets the 1910 Reunion.

MEMPHIS, Tenn., June 10.—After re-electing Gen. Clement A. Evans commander-in-chief over his vigorous but futile protest, and selecting Mobile, Ala., as the next place of reunion, the United Confederate Veterans adjourned their business meeting last night on the heels of a very stormy session.

The big feature of the reunion, the parade of the veterans, will be held today and this parade will close the reunion of 1909. The only candidate for commander-in-chief placed in nomination was Gen. William M. Cabell, commander of the trans-Mississippi division.

Just before nominations were in order, Gen. Evans read an announcement to the convention, in which he declined re-election. He said he had served in every capacity, from the lowest to the highest and he felt that the highest honor in the Confederacy's gift should be passed from one ex-Confederate to another in turn.

Stormy Session Is Held.

But the delegates disagreed with him and by a vote of 1,530 to 744 for Cabell, re-elected Gen. Evans to command. With tears streaming down his cheeks and shaking with emotion, the stately and aged soldier bowed to the commands of his comrades.

His election followed one of the stormiest sessions of the veterans which old-time delegates can recall. After Mobile, Houston, Nashville, Chattanooga and Oklahoma City had been put in nomination for the next reunion, someone began to introduce outside speakers. Sweltering in a temperature of over a hundred degrees the veteran delegates objected strongly and yelled vigorously for a vote. But the disorder was desultory.

Finally John W. Apperson, commander-in-chief of the United Sons of Confederate Veterans, secured the floor and introduced Congressman T. U. Sisson of Mississippi, as the spokesman of the Sons. Nearly everyone thought that Sisson was to spring a "dark horse" candidate for the next meeting place, but as it became evident that the young Congressman merely desired to make a speech the delegates became noisy and calls of "sit down" and "vote" were insistent. Sisson was game, however, and won out on a test of endurance.

He announced that he wished to repeat his speech in Congress, delivered in answer to Congressman Calderhead of Kansas, who charged that the Southern people were lazy. Sisson received some encouragement and some hisses, but he persevered. Finally, he concluded in a burst of eloquence, saying:

"The principles you fought for were

right in '61 and are right today. You were not conquered then, you are not conquered now, and the greatest monument in your honor are the millions of pensions the Federal Government pays to the widows and orphans your valor made and the forty-six thousand graves in Arlington Cemetery which the Federal Government decorates each thirtieth of May. As long as these monuments are perpetuated to your honor, you need erect no others."

Sisson's speech was received with mingled cheers and hisses and many Confederates left the hall in disgust. Others crowded around him and swamped him with congratulations.

A Texas Woman's Speech.

Meantime, Mrs. Moore Murdock of Dallas, Tex., was endeavoring to be heard. She wanted to second the nomination of Houston, Tex., for the next reunion. She possesses a very masculine voice and manner of delivery and she soon quieted the assembly. The veterans listened in patience until she declared:

"We have lived as rebels, we are still rebels and we will die as rebels."

Then pandemonium broke loose. It was difficult to tell whether the majority favored her sentiments or opposed them. Cheers were mingled with cat calls and hisses and above all reverberated the ear-splitting "rebel yell."

Several other speakers were introduced, but no one heard their names, or what they said, until Governor Haskell of Oklahoma was introduced. Even he had a stormy greeting, which might be construed one way or another. Finally, however, he tired out the crowd and made a diplomatic speech, inviting the convention to choose Oklahoma City for the 1910 reunion.

"You will find Confederate veterans in most of the offices of the State, from Supreme Court judges to constables," he said, "and you will find as hearty a welcome as you will find anywhere on God's earth."

Mobile Used Gumshoes.

Immediately after the Governor's speech the vote for the next reunion city began. Everyone picked Houston, Tex., as the winner, but Mobile seemed to have conducted a gumshoe campaign and it soon became evident that the Alabama city had won. She polled 1,384 votes with Houston second with 695. Oklahoma City, Nashville and Chattanooga received scattering votes. As soon as it became apparent that Mobile had won, there was a scramble to get into the band wagon and the choice was made unanimous. Gen. Evans' re-election

Livingston Arrests Negro Who Killed Another

After successfully evading the officers of the law for the past two years, Ben Wright, colored, was arrested Thursday and brought here by Deputy Sheriff Geo. W. Livingston. Wright is charged with the murder of another negro.

The killing occurred about two years ago, just after a wreck at Cadillac, and the weapon used was a 2x4 scantling, which broke the man's neck at the very first blow.

It seems that all parties had been working hard to clear the track and

after it was in readiness the negroes went off to lay down and get some rest. The murdered man had made a bed of two cross-ties, when he was approached by Wright, who wanted his bed. By refusing to divide his rough sleeping place with Wright, he was knocked over the head with the stick, which broke his neck.

Realizing what he had done, Wright at once made his escape and has been in hiding ever since, but straying in these quarters, recently Deputy Sheriff Livingston picked him up.

HISTORY OF SPLEN- DID ORGANIZATION

GREAT BENEVOLENT AND PRO-
TECTIVE ORDER OF ELKS.

An Englishman, Charles Algernon Sid-
ney Vivian, Said to Be Ori-
ginator of the Order.

The Benevolent and Protective Order of Elks was first organized in 1867 and was started by a few jolly fellows who wanted to enjoy life first and attend to business afterward. They had their initial meeting in New York and called themselves the Jolly Corks. This name must have been selected because of the fact that several of the originators were members of that branch of the theatrical profession devoted to minstrelsy. But soon after the Jolly Corks had organized themselves into a society they decided to broaden its scope and have for an ideal a higher aim than just a good time. A universal brotherhood was the prime object of the reorganized society, and the name was changed to the one it now bears. From a little company of good fellows the order has grown until it embraces lodges in more than 350 of the principal towns and cities of the United States. From a small gathering of men who were holding out a helping hand to one another, the order has grown until there is more than \$200,000 in possession of the Grand Lodge that are held in reserve.

Some idea of the magnitude of the order, and of the class of men who are on its roll of membership, may be gained from an incident connected with the terrible earthquake at San Francisco, California. When the news was first flashed over the country, the Grand Lodge of Elks ordered a check for \$10,000 sent to the San Francisco lodge. This was followed up with donations from every lodge in the country. The Atlanta (Ga.) lodge was among the givers. Soon after this, and while cries of graft were shocking the country in connection with the relief of the sufferers, every check was returned by San Francisco Elks. Not one cent was taken by that lodge, and not a man who was a member of the Elks accepted a cent from any outside source. The money that had been sent by the Grand Lodge, and all of the subordinate lodges, was returned. San Francisco lodge took care of its members, and though the city was almost totally destroyed not an Elk in that territory had to call on the outside world for help.

When Messina was laid waste by an earthquake, only a few months ago, the Grand Lodge of Elks sent \$5,000 to the sufferers. There was never any publicity given to these donations, and the world would not have known about them had they not gained circulation through the regular course of business.

Brotherly love and justice go hand in hand with charity; one cannot exist without the other—so those three items are the cardinal points of Elksdom. There have been many stories told of how the order originated, but the man, perhaps, who is most responsible for it, and who suggested the brotherly love feature, was Charles Algernon Sidney Vivian, an Englishman. It may seem strange that an Englishman should have been the founder of a strictly American order, but it is true, nevertheless.

Vivian was a vaudeville performer, and dreamed night and day of the time when all mankind would live and have its being in universal brotherhood, where love and charity would predominate. It was this man who shaped in a great measure the future of the order, and to this day it is following out largely his ideas. The name, however, was not of his selection. Vivian favored giving the order the name of Buffalo, because he had been a member of an order in England of that name. At that time there were sixteen members of the order and the vote was a close one, the Elks winning by a majority of one.

Meetings were held in the parlors of a boarding-house that was very popular with theatrical people, musicians and other jolly fellows. The order soon outgrew this meeting-place and new quarters were secured. Then it was that the Elks broadened in scope and men from all walks of life began making application for membership.

There was at various times discus-

sion regarding the name of the organization, and the members who favored the continuation of the one adopted made an investigation of the character of the animal whose name had been chosen. In Buffon's Natural History, which was found in the library of the Cooper Institute, much information regarding the elk was obtained. Here it was said that the animal would not fight except in defense of the female when attacked by an enemy, or for the helpless and the wounded, and it said he was timid regarding wrongdoing, but was brave when aroused. These researches served to solidify the defenders of the title, and it remained undisturbed in after years.

Vivian never lived to see the order of Elks grow to the great society that it soon after became, for he died in Leadville, Col., on March 20, 1886. His remains were interred there, but later were taken to Boston, and they now rest in the Elks' plot of Mount Hope Cemetery in that city, his grave being marked with a handsome monument erected by the order.

An effort was made during the early years of the order to confine its membership to the theatrical profession, but this met with instant opposition, and for a time bade fair to precipitate a bitter factional fight. The spirit of brotherly love, however, on which the order was founded finally prevailed and peace was declared.

There has been much speculation regarding the 11 o'clock toast of the Elks, but very little is known regarding it. This feature originated in 1868, when just as the New York lodge was about to adjourn, George McDonald, one of the original members of the order, suggested "A Toast to Our Absent Brothers." From that came the 11 o'clock toast, and the world over all Elks are supposed to give just a moment of that hour. This little tribute to the departed is one of the most beautiful things connected with Elksdom. Two years after the adoption of the 11 o'clock toast the Lodge of Sorrow was created, and each year since then each lodge has paid loving tribute to those brothers who have been called into the Great Beyond. At these meetings appropriate addresses are made and ceremonies that benefit the occasion are held. At all of these meetings the names of absent brothers are called by the secretary, for no man claimed by death is ever forgotten by his lodge.

There has been an impression among some not fully familiar with the order that at that time tribute is paid to those who have departed during the year. This, however, is a mistake, as all names are called

and all are given that same mark of respect.

The Elks have a feature that no other order in the world possesses. Go where you will, if there is a lodge of Elks where you stop the open door will be found. There also will be found a brother if you are an Elk, ready to receive you, and if need be, to minister to your wants.

Every lodge of Elks has a secretary whose duty it is to remain at the home for the sole purpose of receiving and entertaining those who may call. It makes no difference to what lodge you belong, just so you are an Elk you are welcome. The man who is a member of the San Francisco lodge is just as much at home, has just as many rights in the lodge room of the New York Elks as the man who has lived in the metropolis all his life. There is no distinction, no difference made. A member of the Manila lodge will be just as much at ease and be just as welcome in Atlanta, and be given just as much attention and privilege, as he would be accorded in his own town.

The "Hello, Bill" of the Elks is the only introduction needed where two or more of them meet. That salutation has no place in the ritual of the order, it is true, but it has been adopted by universal consent. It is the open sesame to good-fellowship. It is the guarantee that goes with a good nature, a clear conscience, an open purse and a kind heart.

If you are not an Elk, you are missing the best things on earth; you are not getting what is coming to you, and you are losing an opportunity to do good that if accepted will make you live longer, feel better and laugh more.—Walter Taylor in Atlanta Journal.

WOMAN, LOVELY WOMAN

But Alas, Without Beautiful Hair No Woman Can Be Handsome.

A great many newspapers and magazines are printing pages on how a woman can be beautiful and keep beautiful.

And everyone, as you can see for yourself, admits that no woman can be really beautiful unless she has lustrous and luxuriant hair.

The women of Paris are, as a rule, beautiful and keep beautiful, and a careful American observer who has traveled much claims that their beauty is due to their knowledge of how to keep their hair luxuriant, which they do by using a superior hair tonic.

Many American women are as wise as their French sisters, and that is why Parisian Sage, the quick-acting and greatest of all hair restorers and tonics is now having such a tremendous sale in America.

We ask every woman reader of this paper to give this marvelous hair beautifier a thorough trial, and we gladly make them this liberal offer:

Get a 50-cent bottle from W. M. Johnson today, the largest for the money in America. Use it as directed for two weeks. If at the end of that time you are not satisfied with results, say so to W. M. Johnson and he will give you your money back.

Besides being a delightful and invigorating hair dressing, free from grease and stickiness, Parisian Sage will surely cure dandruff, stop falling hair and itching of the scalp, or money back.

The girl with the auburn hair is on every package, and leading druggists in every town sell Parisian Sage.

He will probably answer, "Very, very frequently." Then ask him about Ayer's non-alcoholic Sarsaparilla. He will say, "Ayer's Sarsaparilla is a tonic for the young."

MEETING ADJOURNS AFTER BUSY SESSION

PHARMACEUTICAL ASSOCIATION
MEET NEXT IN JACKSONVILLE.

Highly Pleased With Entertainment
Received by the Local Committee and Ladies.

The third and last day's work of the State Pharmaceutical Association was called to order Thursday morning by the president, Wm. S. Oppenheimer of Tampa, and the board at once took up the regular routine business.

By special invitation, W. S. Elkins, president of the N. R. D. A., was present and delivered a short and very interesting address to the members on the good of the organization. The enthusiasm of its members, he stated, was becoming more noticeable in all sections and he was pleased to note the large number present at this meeting who were also members. The great good it is now doing the retail druggists of Florida is especially pleasing, and he strongly urged each and every one to become members.

With a feeling of great pleasure he referred to the manner in which the druggists were being entertained, not only by the local committee, but by the citizens, and stated that the manner in which the ladies had assisted in making their meeting a pleasant one was commendable and highly appreciated.

The association took up the matter of the Cox anti-narcotic bill and spoke very feelingly regarding its passage. By this bill, a druggist is not allowed to sell you paregoric, dovers powders, and numerous other household staple remedies without a prescription from a physician.

Jacksonville was selected by the association for its next regular meeting, which will occur on the second Wednesday in June, 1910, it being easily accessible owing to the schedules of the railways, which always favor it.

Gainesville was honored by the election of Dr. J. S. Bodiford as president and Dr. W. M. Johnson as secretary for the next term, the lat-

NEW TRAIN SERVICE HAS BEEN CHANGED

NEW SCHEDULE WILL BE EFFECTIVE ON AND AFTER JUNE 28.

Superintendent McArthur Receives
News That Change Would Be
Postponed Till Later Date.

The new schedule on the Atlantic Coast Line which was to have taken effect on next Monday, June 14th, has been postponed for two weeks, owing to business reasons of the railway.

Superintendent McArthur received the above information Thursday by wire, and it will prove a disappointment to a large number of people, especially those who had anticipated it during the present session of court, but owing to the fact that the company could not make the necessary arrangements in time for this change to take effect on June 14th, as was first anticipated, it was found necessary to postpone it until June 28th, just two weeks later.

It is not this service alone that will go into effect on this date, but the railway officials will place another train in service from Ocala to Tampa, and with all the new trains it will require some time to get them fully arranged before making the change.

When this new service has been inaugurated, it will prove one of the best schedules ever inaugurated to the city and the merchants and business men should feel thankful to the Board of Trade and Superintendent McArthur for securing the service.

er succeeding himself, having held his position for the past year.

Numerous resolutions were passed by the association, selecting the route over the L. & N., "South Atlantic Limited," to attend the National Association, the hospitable manner in which they had been entertained by the citizens of the city, and especially the manner in which the ladies had entertained them.

A prize was awarded Mrs. F. W. Zanders of Lake Helen, for the lady that had traveled the greatest distance to attend the meeting, and E. Berger was awarded the prize for the gentleman securing the largest number of applications to the association.

Dr. Coles of Miami received the prize awarded for the best paper prepared for the meeting, also the prize for having traveled the greatest distance to attend the meeting.

Mrs. S. M. Davis won the first and Miss Eula Clark second prize in the bridge whist game of the ladies on Thursday evening.

The afternoon session was taken up with minor business, after which the association adjourned sine die, and those remaining in the city were shown over Gainesville in automobiles.

DEATH OF MRS. HAYNESWORTH.

Occurs After Illness Covering Period

Mrs. J. E. Haynesworth of Haynesworth station, near Alachua, died at her home late Wednesday evening after a lingering illness of several weeks.

Her death was due to paralysis, but she bore her suffering well until death claimed her.

The remains were laid to rest in Newnansville Cemetery Thursday afternoon, a large number of sorrowing friends attending the funeral.

ASTHMA AND HAY FEVER WILL VANISH.

Everybody knows that Hyomel cures catarrh. But there are many sufferers from asthma and hay fever who don't know that Hyomel will give them instant relief and if used regularly permanent cure.

But J. W. McCollum & Co. know so well what Hyomel will do that they guarantee it to cure catarrh, hay fever and asthma or money back.

Surely it's worth a trial on that basis and why people continue to choke and wheeze and spit and hawk and snuffle when a certain cure is at hand is beyond the comprehension of human intelligence.

When you breathe Hyomel deep into your lungs you breathe exactly the same pleasant antiseptic balmy air that you would breathe in the forests of pine and eucalyptus of inland Australia.

"Doctoring and remedies never helped my hay fever, till I used Hyomel. It gave me great relief, and has my unqualified endorsement."—Louis A. Grove, Flint, Mich.

Complete Hyomel outfit is only \$1.00, and extra bottles 50 cents. A Hyomel outfit consists of a bottle of Hyomel, a hard rubber inhaler, medicine dropper and full instructions for use. Just breathe it in and get immediate relief.

MI-ONA Cures Indigestion

It relieves stomach misery, sour stomach, belching, and cures all stomach diseases or money back. Large box of tablets 50 cents. Druggists in all towns.

Would You Think of Eating Salt Pork Every Day?

Lard is hog fat—so is salt pork. Both are indigestible and often unhealthy. Until *Cottolene* was placed on the market, people had to use lard for all frying and shortening purposes—they had no recourse. But now there is no excuse for eating lard-soaked pastry and jeopardising your digestion with lard-soaked food.

Cottolene is a vegetable product—pure, healthful, digestible. It contains no hog fat. Even a dyspeptic can eat and enjoy *Cottolene* food without the after-pangs of indigestion.

Once give *Cottolene* a fair trial and you'll banish lard from your kitchen forever.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given *Cottolene* a fair test.

Never Sold in Bulk *Cottolene* is packed in pails with an airtight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

SUMMER SCHOOLS TO OPEN DURING JULY

ONLY VERY FEW HAVE SO FAR
BEEN HEARD FROM.

In All the County Usually Run About
Twenty Schools During
Dull Months.

The summer public schools of Alachua county will open about July 5th, so the reporter was informed by Superintendent Kelley on Wednesday. He stated that unless the supervisors and patrons got together on the subject and advise the board, there will be a smaller number in operation the coming summer than ever before.

There are always on an average of twenty schools taught in the county during the dull months, but up to the present time very few districts have signified their intention of securing them. Haynesworth, Thomas, Cow Creek, Spring Hill, Jennings Lake, Roadfield and Cherry Sink have been the only ones heard from up to the present time.

These schools are a great benefit to certain localities, as they are taught at a time when it is too hot for the children to assist with farm work and they can put in the time to good advantage. During the fall and winter months they are more or less required at their homes and are deprived from a portion of the school term unless they take advantage of it in the summer months.

In order for other districts to secure schools it is necessary for them to advise the board at once, that the proper action may be taken and good teachers secured.

Some men of colossal fortunes get lots of credit and applause for their supposed generosity to charitable institutions. But if the people were not compelled to pay tribute to the rogues whereby a few men make immense fortunes which are good neither for themselves, their children nor the country, there would be fewer objects of charity.

This is the time of year when because of recurring national anniversaries we hear a great deal of talk about being ready to die for one's country. Fortunately there is no demand now for that sacrifice, but to live for one's country is always in order. That is best done by obedience to its laws, reverence for its institutions, the cheerful performance of the duties of citizenship, and a clean, upright and useful life.

The State press is unanimous in condemning the lynching of the negro at Tallahassee last Sunday. The man would have been legally hanged on the 11th of June, and the unlawful taking of his life was an outrage upon the State. If lynching is ever justifiable it is when the mob does its work before the offender is in the hands of the officers. Certainly it cannot be justified after a man has been convicted and the day of his execution fixed by the Governor.

A very sane and human sort of young woman is Miss Laura Engel, who lives in Kittanning, Pa., remarks The Savannah News. She is a dressmaker, and for years has earned her living with her needle. The other day she fell heir to a fortune of \$175,000. And what did she do? Did she put aside the needle and quit dressmaking? She did, on the nail. Her first purchase was half a dozen blue frocks, half a dozen blue hats and an automobile. She says she won't sew another stitch as long as her money holds out.

Orville and Wilbur Wright were accorded a well deserved ovation on their return from Europe. Progress in aerial navigation has been very rapid the past two or three years and the Wrights have done the most to advance it and at the same time its popularity by their wonderful achievements. So great have been the triumphs already gained that even the most skeptical as to the availability of air ships and dirigible balloons are by this time converted. Of course there is much yet to be done, and apparently aerial navigation will always be risky in spite of coming improvements. Their value for military purposes is still uncertain, for that is something that cannot positively be ascertained without actual warfare.

GOVERNOR LAYS VETO

A special to The Sun from Tallahassee says: Governor Albert W. Clifton vetoed the Conway Advertising Bill from becoming a law of our State. Receiving almost the unanimous expression of the Florida press against this measure, he embodied questions from many in his message to the Secretary of State, which is given below:

"Hon. R. Clay Crawford, Secretary of State: Dear Sir—In pursuance of the provisions of Section 23, Article I of the State Constitution, I have the honor to hand you herewith for filing the following bill passed by the Legislature of 1938, from which my approval is withheld for the reasons attached:

"An Act regulating the publication in newspapers of articles, either as news matter or as editorials, for the publication of which money has been paid, and prescribing penalties for the violation thereof.

"Be it enacted by the Legislature of the State of Florida:

"Section 1. Whenever any newspaper or periodical published in this State shall contain any article, illustration, caricature or cartoon purporting to be news matter or editorial matter, but for the printing or publishing of which the editor of such newspaper or periodical, his agent or employee, or any one of them, have been paid or promised to be paid, the word 'advertisement' shall be conspicuously printed just above such article, illustration, caricature or cartoon.

"Section 2. Whoever violates the penal clause.

"In Section 16 of Article I of the Constitution of the State of Florida, referring to legislative enactment, may be found the following: 'Which subject shall be briefly expressed in the title.'

"It will be observed that in the title it is intended for the bill to regulate 'The publication in newspapers of articles, either as news matter or as editorials, for the publication of which money has been paid.' It will be observed that in Section 1, in addition to article, reference is made to illustration, caricature or cartoon; but few people consider an illustration, caricature or cartoon either as editorial or news matter.

"It will be observed that the limitation as to who has been paid or promised to be paid for the publication or sale, refers to the Editor of such newspaper or periodical, his agent or employee. There is nothing in the bill to prevent the publisher or proprietor, who may not also be the editor, from receiving pay for articles written by the editor.

"It has been claimed that in a legal sense a paper or periodical is published wherever circulated. This would then apply to papers published in other States and circulated in this State, in which event it would be in conflict with the Interstate Commerce Laws. On the other hand, if it did not apply to papers published in other States, in the publication of patent medicines or other advertisements it would operate as a discrimination against the newspapers of this State.

"The Editors, Publishers and Proprietors of Many Newspapers in This State Have Requested Me to Disapprove This Bill, stating that a write-up of a town or county, or any private business affair for which pay is made, could not appear in a newspaper without being tagged with the word 'Advertisement.' 'Tact' inasmuch to a most honorable profession.' 'Operate against the State's commercial and industrial development.' 'Interfere with private business in which the public is not interested, causing loss to the newspapers without a gain of any kind to anybody.' 'Insult and reflection on the integrity of every newspaper man in this State.' 'Work an injury on the papers of the State.' 'Infringement upon the constitutional rights and liberties of the press.' 'One full column of two-line readers will take one-half of another column of our space to put tag laws on. The advertiser will not pay for this and the State makes no provision for reimbursing us.' 'Unjust reflection upon all our newspapers, nearly all, if not quite all of which are edited and conducted by men of brains and honor, who have been and are one of the chief instrumentalities in advertising the moral interests of the State.' 'Insult to the newspapers of Florida, tacitly charging them with wholesale

dishonesty.' 'Greatly decreasing their revenue from a legitimate source in the way of publishing descriptive articles and other matter which to one would desire to have published under the head of advertisement.' 'Genuine measure.' 'Exceedingly harmful to the newspaper interests.' 'Constant menace to the peace and welfare of the publishers.' 'The hardship will fall on the small papers throughout the country who can barely eke out an existence.' Many other objections could be given. I know of but one newspaper man in all Florida who is not opposed to the measure.

(Signed) "Very Respectfully," "ALBERT W. CLIFTON," "Governor."

The power of veto also fell across an act authorizing trustees of special tax school districts in any of the several counties of the State of Florida to issue bonds or other evidences of indebtedness to secure any outstanding indebtedness of and district and to secure any indebtedness incurred in purchase of any real estate or personal property for educational purposes and the erection of buildings and maintaining the same for such purposes, and to provide an election to authorize such issuing of bonds, which act the Chief Executive deemed unconstitutional. In his veto he said: "Examining Section 11 of Article 12 of the Constitution, it will be observed that the trustees are elected biennially and that biennially there is an election for the levy and collection of a district school tax.

"Section 4 of the bill provides: 'No special tax school districts shall be established until any and all of such indebtedness shall be fully paid.' This is in derogation of the rights of the electors.

"Section 5 of the bill provides, 'If at such election, three-fifths of the votes cast shall be in favor of the proposition.' Said Section 10 of the Constitution provides that 'whenever a majority of the qualified electors thereof, etc., shall vote in favor of such levy. Three-fifths of the votes cast is not necessarily a majority of the qualified electors thereof.'

"The passage of such bill as this would impermissibly result in loss to capitalists who would invest in such bonds and would deprive the electors of their constitutional rights."

VERDICT OF GUILTY IN DUNCAN JORDAN CASE

MURDER IN SECOND DEGREE
WAS JURY'S DECISION.

Case of Lewis and Cronin Martin and
George Powers Continued—The
L. J. Knight Case.

Circuit Court was called to order at 9 o'clock Thursday morning, Judge Wills presiding.

The jury in the case of Duncan Jordan, charged with the murder of Geo. L. Bryant, marshal of High Springs, which had been out since 9:50 o'clock Wednesday night, filed into the court room, when Clerk Wienges called the roll, each juror answering "here."

Judge Wills asked if they had agreed upon a verdict, whereupon W. M. Pepper arose, saying "We have," when he handed the clerk the document, which read:

"We, the jury, find the defendant guilty of murder in the second degree. So say we all.

"W. M. PEPPER, Foreman.
"June 10th, 1909."

Those who had been summoned on the special venire in this case were then discharged for the term.

Case Continued.

The case of the State vs. Lewis Martin, Cronin Martin and George Powers, charged with rape, was continued until the third Monday in November.

The case of the State of Florida vs. L. J. Knight, trespass, was then called, and the following jury sworn: O. L. Feaster, O. A. Thigpin, J. L. Stokes, J. K. Feaster, J. P. Bradshaw, J. G. Beville.

The taking of evidence then began and had not been concluded when court adjourned late in the afternoon. Mr. Knight is charged with cutting a quantity of timber from land belonging to the Empire Lumber Company.

Col. C. L. Peck, G. H. May, M. Venable and J. W. McCann were called in the order named to testify for the State. A deed to the Empire Lumber Company covering the land in question was offered and filed as evidence, also a letter from defendant offering to purchase the property.

The State here rested temporarily, and Mr. Knight was sworn in his

NEEDFUL KNOWLEDGE

Gainesville People Should Learn to
Detect the Approach of Kidney
Disease.

The symptoms of kidney trouble are so unmistakable that they leave no ground for doubt. Sick kidneys excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, headaches and dizzy spells may occur and the victim is often weighed down by a feeling of languor and fatigue. Neglect these warnings and there is danger of dropsy, Bright's Disease, or diabetes. Any one of these symptoms is warning enough to begin treating the kidneys at once. Delay often proves fatal.

You can use no better remedy than Doan's Kidney Pills. Here's Gainesville proof:

Mrs. James Doig, 902 Alachua avenue, Gainesville, Fla., says: "It is now some time since I used Doan's Kidney Pills and I am glad to say that I have had no need of a kidney remedy. Several years ago Doan's Kidney Pills drove away a severe attack of kidney trouble and time has proven the cure to be a permanent one. I take pleasure in recommending Doan's Kidney Pills to other kidney sufferers."

own behalf. D. D. Weeks and Wm. Thomas also testified in behalf of the defense.

In rebuttal the State placed upon the stand Abe Jones, Columbus Smith, Ed Harris and A. G. Hill, after which Solicitor Rivers announced that the State closed.

Defendant's counsel stated that they had other evidence to submit, and as it was late in the afternoon, court adjourned until 9 o'clock Friday morning.

Mr. Knight is represented by Attorneys Horatio Davis, Evans Halle and Syd L. Carter, the commonwealth by Solicitor Rivers.

It is probable that court will adjourn for the term today.

Men Past Fifty in Danger.

Men past middle life have found comfort and relief in Foley's Kidney Remedy, especially for enlarged prostate gland, which is very common among elderly men. L. E. Morris, Dexter, Ky., writes: "Up to a year ago my father suffered from kidney and bladder trouble and several physicians pronounced it enlargement of the prostate gland and advised an operation. On account of his age we were afraid he could not stand it and I recommended Foley's Kidney Remedy, and the first bottle relieved him, and after taking the second bottle he was no longer troubled with this complaint." No Time For Retreat.

In an Irish garrison town a theatrical company was giving performances, and some soldiers from the local barracks were engaged to act as supers. Their duties included the waging of a fierce fight in which, after a stirring struggle, one army was defeated on a given signal from the prompter. For a few nights all went well, but on the Friday evening a special performance of the piece was to be given under the patronage of the colonel and other officers of the garrison. The two armies met as usual at the end of the second act, when they fought and fought and kept on fighting, regardless of the agonized glare in the eye of their actor general, who hourly ordered the proper army to "Retreat, confound you." But the fight still went on, and soon the horrified manager saw the wrong army being driven slowly off the stage, still fighting desperately. Down came the curtain amid roars of laughter, and the fuming manager hastened to ask the delinquents why they had failed to retreat on hearing the signal.

"Retraite," roared a burly fusilier whose visage had been badly battered, "and is it retraite ye'd have us, wid the colonel and all the officers in the boxes?"—London Scraps.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

PALATKA ARTISTS AT THE BAIRD

Mrs. Helen Sloan Kaibfield and Miss Lecks "Make Good."

The fourth performance given at the New Baird Theatre last evening for the benefit of the Oak Hall baseball club was witnessed by one of the largest houses they have had during the entire week, due largely to the splendid bill, which won universal applause from the audience.

Mrs. Kaibfield, who kindly consented to assist the boys in raising funds, appeared for the second time and it was soon seen that she was no amateur and had not forgotten her old profession in standing before the footlights. She has a remarkably strong voice and can use it in a soft and pleasant manner. She has only recently refused many flattering offers of again entering the profession and Palatka is fortunate in having such material at hand that could be commanded so easily for benefit occasions.

Miss Irene Lecks in her illustrated song was also pleasing. She has a sweet, soft voice and her song was highly appreciated, while the Leaning Levee, the vaudeville feature of the performance, is something that all should be proud of and give their hearty support.

In addition to these numbers, there are three reels of moving pictures run each night, and you get the benefit of a first-class performance, all for the very small sum of 15 cents.

Levee will lean from the roof of the theatre this afternoon at 5 o'clock.
